Fruita Farms Grand Tour

Distance: 55.2 miles / 88.9 kilometers
Total Climbing: 1,101 feet / 336 meters
Ride Difficulty: Easy, but can get tough on a windy day

Getting to the Start

Exit I-70 at 24 Road and head south about 1/4 mile to the entrance to Canyon View Park. Park anywhere...well not anywhere, somewhere in the parking lot ideally. Water is available at the restrooms.

Start your ride by heading out the south entrance to Canyon View Park to G Road and turn right. Go straight through the traffic light at 24 Road and continue on west.

Available in the Avenza PDF Maps app

To Douglas Pass

Highline Lake State Park requires cyclists to pay a $4 day use fee or have a Colorado State Parks pass in order to enter the park even to just access water and/or restrooms. They do NOT accept National Parks passes.
