

KEY KEATURES

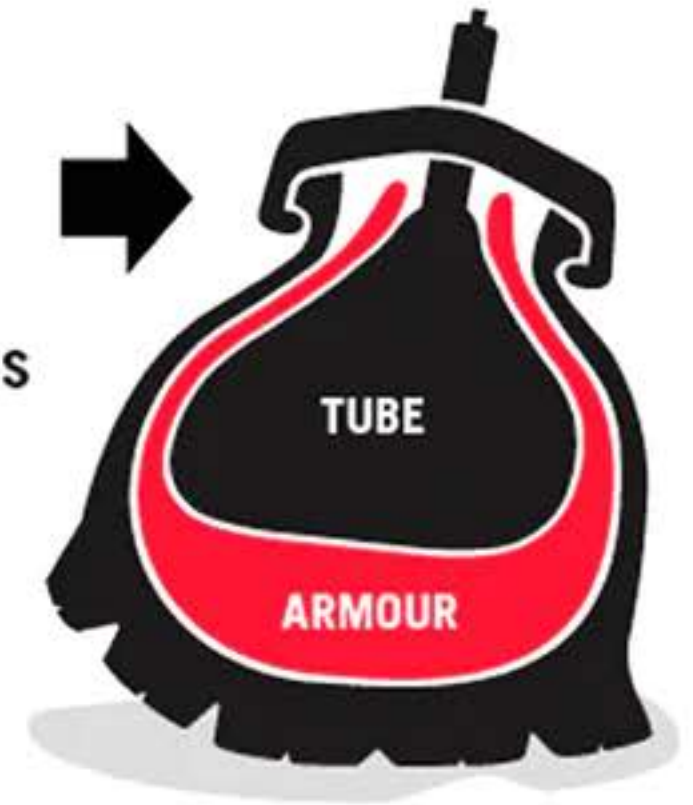

PUNCTURE PROTECTION

Armour eliminates 90% of all punctures due to its reinforced sidewall and underside protection

INCREASED GRIP

Run at lower pressures for increased grip in wet conditions and loose rock

INCREASED COMFORT

Armour absorbs vibrations for a smoother, more comfortable ride

RUN-FLAT

If you do get a flat tire, you can still ride for a limited period at up to 10km/h without damaging your wheel

FAST ROLLING

Engineered to minimise rolling-resistance (drag), Tannus Armour provides the ultimate balance of speed and protection

EASY INSTALLATION

Installing the Armour is as quick and easy as installing a regular tire and is maintenance free

40 seconds
