9. Return to Chesapeake Exploration Center, retracing the original route. (14.0/28.0)

Kent Island Bike Trails

1
28 miles

We are lucky to have two fantastic bike trails on Kent Island. The Cross Island Trail runs 6 miles east to west along an abandoned rail corridor, and the South Island Trail parallels MD Route 8 between Matapeake and Kent Point Road. This ride features our gems and shows off the best of Kent Island. Remember that the trails can be crowded during peak usage, so this may not be the ride for you if the goal is speed.

Sidetrips:

(*) *Consider following MD Route 8 N to Love Point. Return to the mapped route, backtracking along MD Route 8. The spur adds 3.6 mi each way.*

(**) *After traveling 4.7 mi on the South Island Trail consider a spur to Bloody Point along Kent Point Road. Backtrack to mapped route. The spur adds 4.0 mi each way.*
